

October 14th 2017

As I look into 2018, I get a sense of great expectancy, I hear the Holy Spirit say - you will hear more and more places where my Spirit will be poured out. There will be uprisings of the demonic around the US and other countries from those who would be used by the enemy to try and stop the moving of my Spirit, but this will be futile in effort. I will begin to pour out my Spirit in a greater way since the day of Pentecost. I will begin to sweep across the United States and other nations of the world, schools, college campuses, small towns will see great impact of my Spirit, there will be places that my Spirit will be so tangible you will feel my presence as soon as you cross the city limits. The harvest of souls will be great in number. By the year 2025 there will be great change in the earth and among the nations of the world, so run with my fire, run, run, run. There will be a greater population boom in the earth. There will be increased revelation in the area of the supernatural and the gifts of the Holy Spirit, you will see arms and legs grow back into place right before your eyes, outstanding miracles that will flow freely. There will be an intensity of my presence like as I was with Moses so shall I be with you. Many closed nations to the Gospel message will open up wide. Cuba, China, Iraq, Egypt, Saudi Arabia, Sierra, North Korea will experience revival, great persecution will continue in Iran and Turkey. Technology breakthroughs in the medical industry will revolutionize many people's lives, there will be public access to cures of cancer and many will receive the benefit. Micro neurological cyber implants will aid in people walking, limb replacement with working arms that look and react as if they were real, flying car prototypes will be in operation to restricted areas but will be fully operational, drone package delivery, human like robot's advancement. There will be continued weather changes an increase of intensity of storms, earthquakes shall increase. There will be increased security in airports, banks, gov't facilities. Laws in the US will be passed to benefit the citizens as they do the gov't. President Trump will be re-elected for a second term but it won't be without demonic and democratic opposition, protesting and demonstrations in the streets. Economic growth will increase to 2025. 2025-2035 Dawn of a New Era – only God Knows.
