

Pastor Jack Myers Prophecy - PM Service 11.19.2023

Oh, the gates of hell will not prevail against you, Church. It will not win, it will try, but it will not win. You are the triumphant Church. You are the victorious Church. You are my glorious bride. You are the glorious Church - in which I abide.

You are my bride. Oh my, I love you with an everlasting love.

Something is going to change, even as we continue in these days. Sometimes a storm comes before the breaking of day because the enemy knows what's coming and he tries to prevent it. Listen, the storms in your life are an indication of what God is going to do for you in the Spirit.

If you notice, when there are storms in the natural, behind that storm comes a huge blessing of the Lord, an outpouring of His Spirit. Right now, the world is in a storm, a big storm. You may be having a storm in your life right now, but be of good cheer, you will not be defeated, and you will not quit.

You will not be defeated, and you will not quit. You will not be defeated, and you will not quit.

The breaker is on His way. It's going to break, the dam will break, the dam will break and it won't be a flood of destruction. It'll be a flood of glory. Just a few short days, just a little more time. Some of you are right at the threshold of the door. The door is about to open even though the wind is blowing, the rain is crashing, the thunder is loud. You're right at the door and when you pass, the dawn of the new day will begin.

A dawn of the new season in your life, it will begin. It will be a season of brightness, a season of glory. It will be a season of harvest. It'll be a season where the wheat is ripe for the picking, and you'll enter into that door and then and then the door will close on that portion of the storm and then it'll be bright.

I even see a vision right now of a field that is ripe for harvesting. The wheat goes for miles and there's a beautiful tree line and the sun is shining. And, it's not hot as scorch but it's like a spring morning looking over a field of wheat and you're walking into that and that gives you an indication of plenty, plenty and blessing.

Oh hallelujah! A dawning of a new day. I keep hearing the Spirit say, "a dawning of a new day".

It is about to break for you. I'm telling you, it's about to break. It's not gonna be a long time, it's going to be very short. Things are about to break for you in a positive, tremendous way. It is not just a few of you that grab a hold of it, it is everyone in this room. It is about to break. I'm telling you, and you need to remind the Lord too.

If you're feeling that pressure, say "Lord, You said it's about to break so I'm gonna hang on to you".

You watch - it's gonna be an avalanche, it's gonna be a tsunami. I keep seeing a vision. It's in my mind's eye. I see a door, you're right there. Pretty much everybody is at that door that needs it to open. It's a storm right here, there's a storm, I see black clouds and I see thunder, I see lightning. I'm seeing in my mind's eye right now. I'm describing to you what I'm seeing, wind blowing, waves crashing. You're at the door. When you open the door and you look, there's a sunrise like an early morning sunrise and I see the heads of trees and I see a wheat field and its golden brown. And you're about to walk through that door.

When you walk through the door, this door will shut.

So, what does a wheat field talk about? It talks about plenty. It talks about peace. Listen, there are seasons of life. We all have seasons in this life. Thank God the ones that we don't like, get to change the season. It's about to, it's about to... open wide.

I get the sense just a little while longer. That doesn't mean like a year or two or three years, we're talking like maybe weeks or maybe even months. Short period of time.

This is a short period of time for whatever that is because we're all at different places. Your short period of time could be somebody else's long period of time, or somebody else's long period of time could be a short period of time for you.

But this is the sense that I'm getting, it's about to "woosh" like a downpour. Like in Florida, it's sunny outside and you just get this warm rain. Not with black clouds or anything. I'm just talking about, like a sun shower, and you should hold on to that and remind the Lord about it. Especially, if you're feeling the press.

Can you say Amen?
