What is the Lord speaking to you:

These are things we do by Faith, thru His grace (ability) they cannot be done in our own strength. His Word in us and through us provides these and all other things! Follow well, those who go before you and who do well with His Word! Press, for the sake of those who come behind you! Give and receive strength to those women around you who are running their race with and beside you! Never tear them down, only lift them up and you will be lifted up and aided in your race...Love P.M.
